CURRENT SALES

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales

EXPORT SALES REPORT

Comments on release of July 28, 1977, (based on reports from exporters for the week ending July 17 unless otherwise noted):

Wheat: Activity was dominated by Poland as they added 198,100 metric tons (MT) of Soft Red Winter to existing purchases, nearly doubling their previous total. Sizeable sales were also reported to Japan, the Philippines and Korea. Sales reported to unspecified destinations were notable, as new sales, cancellation/foreign purchases and destination changes resulted in a net increase of 186,800 MT. Export volume (416,900 MT) remains rather modest.

Corn: The rate of net new sales improved from the extremely slow pace of last week. Notable sales were recorded to Mexico, Japan and several European countries. Significant sales to unknown destinations were reported. Specific destinations were assigned on 146,000 MT of previous unknown destination sales, with Japan and Belgium the principal beneficiaries. New crop 1977/78 activity was rather limited with Japan, Israel and Algeria making token purchases. Exports registered a strong recovery totalling 819,600 MT, most of which was destined for the European Community (EC) and Japan.

Barley: Export interest was the heaviest in many weeks with initial marketing year (MY) sales to Cyprus and Kuwait, sizeable sales to unknown destinations and the selection of the U.S. as the origin on 15,400 MT to Iraq pushing the total 1977/78 sales to over 500,000 MT. Exports were moderately heavy.

Sorghum: Sales activity continued to improve. Israel was the major customer, adding 32,100 MT for 1977/78. Israel and Mexico both benefitted from shifts in 1976/77 sales from unknown. The major new sales for the week were to unspecified destinations. Heavy exports were mainly to Israel and Mexico.

Rice: Sales for the current MY have ground to a virtual standstill as importers shift their interest to 1977/78 supplies. Activity was fairly light for 1977/78 with the big news the purchase of 32,000 MT by Senegal, an important buyer of broken rice in recent months and some intermarketing year adjustments in sales to Indonesia. Exports continued moderately heavy with Iran and Indonesia accounting for most of the outgo.

Soybeans: Net new sales for 1976/77 of 57,000 MT, although small, were on the plus side for the first time in the past three weeks as the EC, Japan and Canada increased total purchases. Sales for the next MY (198,500 MT) slackened from the pace of the previous week. Weekly exports (132,700 MT) continued to decline with Japan, the EC and Canada being the primary recipients. Total exports currently comprise 98.3 percent of the USDA projection for the 1976/77 MY.

Soybean Cake and Meal: For the third time in recent weeks total sales declined as sales cancellations to Mexico and contract adjustments to the EC more than offset new sales. Exports (49,800 MT) continued modest.

Soybean Oil: New sales were insignificant. Exports of 22,700 MT (mostly to India) were the heaviest since early March.

Cotton: Activity made some improvement over the preceding week. Sales for 1976/77 were insignificant while sales for 1977/78 rose moderately as Korea and Japan added 61,000 RB and 15,600 RB, respectively. Exports continue light as only 59,300 RB were lifted, principally to Asia. With only two weeks remaining in the MY, it appears that about 350,000 to 375,000 RB of outstanding sales may be carried forward into 1977/78.

Oats: Showed no significant activity.

SUMMARY OF CURRENT WEEK'S TRANSACTIONS BY REPORTING CATEGORY  
For Week Ending July 17, 1977

Commodity	Beginning 0/S	New Sales 1/ (+)	Purchases From Foreign Sellers 2/ (-)	Buy-Backs and Cancellations 3/ (-)	Exports 4/ (-)	Outstanding Sales
Current Marketing Year	-----1,000 Metric Tons-----

Data shown above may not add due to rounding. 1/Includes increases resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which could result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
